Travel & Exchange Scholarship Reports

The Joan Jackson Dunbar Travel Scholarship

Established in 1960 by Mayor Lloyd D. Jackson (Class of '09), LL.D (Class of '55) and Mrs. Jackson of Hamilton in memory of their daughter, Joan (Class of '40).

Requirements: To be awarded to a woman student enrolled in Level III or above of an Honours program in English for excellence in the work of the program (with emphasis on English). The winner must have secured all her secondary school education in Canada. The award is to be used for study and travel in the United Kingdom and Continental Europe during the vacation before the final Fall/Winter terms.

Typically Available: 1 x \$3,675

2017-18 Recipient: Oprah Hamilton

The Rundle Foreign Study Scholarship

Established in 2011 by the Rundle Foreign Study Bursary at the Hamilton Community Foundation.

Requirements: To be awarded to a student enrolled in Level II or above and who, in the judgment of the Selection Committee, has attained notable academic achievement. The purpose of the scholarship is to provide financial assistance to students who are participating in one of McMaster's formal exchange programs in a country where English is not the first language and who have graduated from a publicly funded secondary school in the Hamilton/Wentworth area.

Typically Available: 1 x \$2,500

2017-18 Recipient: Samantha Bond

The T. Russell Wilkins Memorial Scholarships

Established in 1963 by bequest of Mrs. T. Russell Wilkins (B.A. '18 Brandon, M.A. '32), daughter of former Chancellor Howard P. Whidden, in memory of her husband, Dr. T. Russell Wilkins (Class of '11).

Requirements: Two scholarships to be awarded to students in their penultimate level of an Honours program in Arts and Science, Health Sciences or Science who have demonstrated outstanding academic achievement. In addition, the students should demonstrate a lively interest in the humanities and in the human and social implications of scientific developments. The purpose of the scholarship is to enable the winners to spend the summer before the final Fall/Winter session in travel and study outside Canada.

Typically Available: 2 x \$4,600 each

2017-18 Recipient: Bolade Ajarat Shipeolu

The Scotiabank Commerce Exchange Program Awards

Established in 2011 by Scotiabank in support of students in the DeGroote School of Business who wish to pursue academic studies abroad.

Requirements: To be awarded to students who demonstrate notable academic achievement and are participating in one of McMaster's formal exchange programs in the DeGroote School of Business in a country in which Scotiabank has operations.

The Joan Jackson Dunbar Travel Scholarship Report

It was an honour to receive the Joan Jackson Dunbar Travel Scholarship, and the experience that it afforded me was exceptional. Funded by this scholarship, I attended the University of Cambridge for their International Summer Programme. While at Cambridge, I learned so much through my courses, as well as the city and the programme as a whole. I stayed in Queen's College which is located in a central and historic area, and this allowed me to see much of what the city had to offer. The city of Cambridge is steeped in history, and I visited numerous colleges, churches, and buildings that have played a role in both English and global society throughout time. With events such as the Shakespeare Festival taking place while I was there, I was able to get to know the culture of the city as well. As students from the programme attended performances of Shakespeare plays, the texts that I so often read in my classes at McMaster were brought to life. As well, there was immense variety in the lectures that I was able to take part in; ranging from discussions of *Macbeth* or the nature of the English language to cognitive disorders and neurobiology. Writing an essay for one of my courses, to be evaluated by the professor, was also a great experience and an excellent opportunity for me to really engage with the material. The professors that I had for my courses in the programme were passionate about their subjects and always encouraged us to ask questions and try to learn as much as we could. I engaged in numerous discussions with these professors, as well as my classmates who were also eager to gain knowledge and experience. As the programme was an international one, I met interesting people from a range of countries but all with similar academic interests. Learning and socializing with people of so many different backgrounds taught me things about other nations and cultures that I otherwise would not have known. Overall, I learned a lot, and I am so grateful for my experience at Cambridge.

Seinan Gakuin University,

Fukuoka, Japan

By Samantha Bond

I spent my exchange at Seinan Gakuin University in Fukuoka Japan. Fukuoka is on the southern island of Kyushu in Japan. I really enjoyed my stay at the university. The classes I took were very interesting and allowed me to learn things I wouldn't be able to experience in Canada. Classes were generally quite small, under 20 people and were an hour and a half long. Most classes were run in a lecture style. In those classes the professor would lecture and occasionally ask questions to raise a discussion. These discussions were interesting because you got to hear different opinions from all around the world, as the classes were attended by other international students.

During my time at Seinan I stayed at the On-Campus dormitory, I-House. My room was a little tiny, but I enjoyed it. My room had a bed, desk, mini fridge, toilet and sink and a balcony. There was a communal kitchen with a large fridge and freezer, a stove, microwave, and rice cooker. The showers were communal as well. Most of the international students choose to stay here as it was very close to campus and one of the cheaper accommodation options. This was nice because it allowed all the international students to get to know each other very quickly.

There were lots of clubs available to join. They were athletic and cultural clubs. However, the semesters for the Japanese students and the international students didn't align, if you wanted to join a club, you would be joining in the middle of the Japanese semester. It was also a little difficult to join a club if the members did not speak English. However, club members tried their best to make you feel welcome, even if there was a language barrier.

There are some bars and restaurants in Nishijin, the area where the university is located. However, there is a lot more things to do in Tenjin, which is where I spent a lot of my free time. There were 2 subway stations near the campus. It took around 15 minutes to get to Tenjin, Fukuoka's shopping district by subway. There are a wide variety of bars, clubs, karaoke bars, and arcades open late. There was also an underground shopping center that had a wide variety of stores.

During my stay, I was given the opportunity to visit a local high school. This was an interesting experience because I was able to learn a lot about Japanese culture. The students took us around the school and let us experience Japanese culture, like a tea ceremony, wearing kimono, and calligraphy. We also watched a kendo and Japanese archery practice. At the end, we made lunch with the Japanese students and ate together. This was a very enriching experience as it allowed me to enjoy experiences that I may have not been able to experience during my regular day-to-day life. I was also able to learn about Japanese youth culture because the students led the tour.

Overall, I had a fantastic experience at Seinan Gakuin and in Japan. I would gladly do it again if given the opportunity. I was able to learn so much about a culture and language different to my own. I was also able to make friends from all over the world, not just Japan.

Russel T. Wilkins Travel Scholarship Recipient Report: Bolade (Ajarat) Shipeolu

This past summer was unquestionably one of my most memorable. I had the tremendous opportunity to embark on a research placement at the Institute for Health Systems Research (IHSR) in Malaysia where I was immersed in health policy-related work. I collaborated with fellow students and colleagues at IHSR by providing research support to facilitate evidence-informed decision-making and improvements to IHSR's priority projects. My first day was April 30, 2018, and the last, which came too quickly was July 30, 2018. The internship saw me in three separate departments: Quality Assurance, Health Research Outcomes, and Health Policy.

Foremost, I was involved in a project that directly supported IHSR's goal to improve oral health among Malaysian schoolchildren. This required searching and critically appraising the literature, exploring relevant initiatives employed in comparable nations, and assessing the applicability of the research evidence in the Malaysian context. These findings were presented in the form of a rapid review. Interestingly, I was able to develop my competencies in writing rapid reviews through this project as it was my first time creating one. As well, a fellow student and I compiled sources that we consulted in drafting this review into a resource folder and presentation for our Malaysian colleagues who were eager to learn about the process.

Another project aimed to assess the input of primary health care (PHC) service delivery and subsequently the performance of the PHC delivery system in Malaysia. This project involved researching markers of PHC performance within countries that are part of the ASEAN (Association of Southeast Asian Nations) intergovernmental organization. This research was presented to our colleagues in the form of a presentation complemented by a more comprehensive report. I was fortunate to travel to some of these countries. On top of exploring a new landscape and engaging with the culture, these trips were particularly fascinating for me because I was able to relate some of my experiences in said country to elements of my research, an experience which would have been impossible without funds from this scholarship.

Furthermore, community excursions broadened my perspective by allowing me to witness on-the-ground realities of the work being done at the office. For example, partaking in home visits during the pre-test of a questionnaire assessing healthcare demand allowed me to observe provider-patient and researcher-patient interactions. Partaking in a stakeholder discussion regarding improvements to the same questionnaire was also an important experience because the professionals came from different backgrounds and for that reason, had competing priorities and made significant inputs. I was able to contrast concerns that were brought up by professionals and by patients regarding the questionnaire, which emphasized the importance of consulting relevant parties before implementing health-related initiatives. While this is often mentioned in literature, experiencing this brought a whole new meaning.

Overall, my time in Malaysia affirmed to me that thrusting myself into unfamiliar spaces is stimulating and fuels my enthusiasm to learn. Thanks to support from this generous scholarship, I was able to take part in what was such a transformative undertaking for me. Contributing to health matters on an institutional level cemented my interest in translational research on a global scale. I was also left feeling fulfilled, having built strong connections with incredible people in what used to be an unfamiliar place. That said, I look forward to seeking opportunities that encourage such meaningful travel and learning experiences and encouraging that of my peers.

Exchange Fall 2018

Kedge Business School, Marseille France

Singing up for the BizX exchange program in the Fall of 2017 was such an exciting process, however knowing that I wouldn't be leaving for another 10 months felt like forever. On August 29th, 2018, I embarked on the journey of 4000 miles to Marseille France. Some immediate differences popped out at me: the language difference, the European feel of the city, and the warm Mediterranean weather. After a few days of being submerged in the French culture and practices, I started to see myself adapting to their ways of living. I studied at Kedge Business School, a leading and recognized business school in France. I had the opportunity to take a wide variety of courses while abroad, that weren't offered at McMaster University. Some of these included Luxury Goods Marketing, International Trade and Euromediterranean Management Approach. I enjoyed these courses as they gave me an international perspective on business and I learnt about how business works outside of Canada. I think this knowledge and perspective is very beneficial in the future and in the work force as it offers you an added skill and perspective that others may not have due to lack of experience. My main goals while abroad were to practice the French language, to develop independence as well as to grow my network of friends around the world. Thankfully, I was able to achieve all these goals through taking risks and being outgoing. A French class was offered at Kedge which really helped me refresh on the French language and gave me an environment in which to practice and learn through doing. Thanks to the scholarship and savings from summer jobs, I was able to travel to many cities around Europe and experience their own cultures, cuisine, and sights. Travelling with a small group of exchange students and discovering new places without depending on the advice and security of parents helped me develop independence and problem-solving skills. The experience of travelling to unknown cities helped me grow as a person and to appreciate the wonderful places in the world. Finally, I have made some life-long friendships with students from around the world which is an experience that I will forever be grateful for. To conclude, my semester abroad in Marseille France has been one that I will forever hold close to my heart.

Dear Nancy Solano,

I was honoured to receive a Travel and Exchange scholarship for completing the Intensive French program in Quebec City at the University of Laval. My experience began on May 13th and finished on June 16th. Here is the brief summary of my experience.

I was living in the residence at the University of Laval for 5 weeks. I was taking three courses: phonetics, oral comprehension and grammar. Classes were every day from 8:30 am to 11:50 am. My group consisted of 18 people. Our typical class time included listening to French conversations audios, working in the team of 2-3 people and answering questions. We had homework every day to practice new topics. Additionally, at the end of each week, we gave a presentation on a given topic or completed a grammar test. Along with that, we had laboratory work, which consisted of computer classes where we recorded ourselves and practiced our pronunciation.

Furthermore, this program included different workshops in the afternoon. My workshop was theatre. It was hosted once per week during which we were able to put a show for other students in the language school that was performed during the last week of classes. Along with theatre, there was a conversation class, where we were learning new words and daily life phrases in the province of Quebec. Furthermore, we were doing different activities in the afternoon. This includes yoga classes, excursions to the Quebec City and boarding games. Every Saturday we were going outside of the town, doing hiking or visiting other cities. My Saturday trips included hiking in Park of Jacques-Cartier, Stoneham and trip to the city of Levis.

Overall, it was a great experience and I really improved my French, by completing the Intensive French program of level 5 out of 6.

Thank you for your attention,
Yelena Motorykina

i. Program Overview:	<p>Offered in affiliation with the Surety Association of Canada, the Associateship in Canadian Surety Bonding Certificate examines surety bonds and the suretyship process and was designed as a learning vehicle for students who plan on embarking on a career in the surety industry. The program aims to provide students with a theoretical and in-depth practical understanding of suretyship.</p> <p>Students are required to complete six courses (four core courses/12.0 units and two elective courses/6.0 units).</p> <p>Upon successful completion of the six courses, participants will be awarded McMaster University's Associateship in Canadian Surety Bonding Certificate. In addition, each graduate will receive an A.C.S.B. Designation Certificate from the Surety Association of Canada, presented annually at the association's Awards Gala Dinner Event, which officially provides authorization to the student to refer to the designation on business correspondence, etc.</p> <p>Program courses will be available in both in-class (electives and fundamentals of accounting only) and online formats.</p> <p>Courses will use a combination of experiential learning activities (i.e. presentations, case studies, facilitated group discussions, group work) and traditional teaching methods to cover the fundamental concepts in</p>

	<p>surety bonding. Emerging trends, theories, practices and core competencies will be discussed to aid in the learning process and ensure that course content is current and relevant.</p> <p>The program's instructors will be practitioners in the field and will emphasize the use of experiential learning techniques.</p> <p>The Associateship in Canadian Surety Bonding Certificate will be an open enrolment program (see "Program Admission Requirements" and "Program Pre-requisites" sections below).</p>
ii. Learning Objectives:	<p>The Associateship in Canadian Surety Bonding Certificate is designed to provide students with an in-depth examination and learning experience related to surety bonds (commercial and contract), the suretyship process, trends that may affect the surety industry, as well as the basic principles of contract law as they apply to construction.</p> <p>Specifically, graduates will be able to:</p> <ul style="list-style-type: none"> • Gain an understanding about the surety industry, including past trends and current state; • Use the knowledge that they have obtained pertaining to the different types of surety bonds and their proper use; • Understand the process of surety underwriting and how it differs from insurance underwriting; • Use their learning of standard construction procedures (i.e. tenders, claims, etc.) and utilize their learnings when analyzing contract documents; and • Gain an understanding of common law practises with regards to legal disputes.
iii. Meeting Learning Objectives:	<p>The Associateship in Canadian Surety Bonding Certificate uses a series of academic courses to achieve the stated program objectives.</p> <p>Individual course objectives are mapped to the overall program objectives. The delivery format and teaching methods are structured to have a maximum effect on achieving the learning objectives.</p>
iv. Program Admission Requirements:	<p>The Associateship in Canadian Surety Bonding Certificate will be an open enrolment program. Potential learners will not be required to apply to the program for admission; however, in order to comply with the Certificates and Diploma, admission policy from Undergraduate Council, students who wish to enter the program must:</p> <ul style="list-style-type: none"> • Have an Ontario Secondary School Diploma, or equivalent; • Be a mature student as defined in the Undergraduate Calendar of McMaster University; or • Be deemed an exceptional case by the Centre for Continuing Education.

	<p>Students seeking to acquire the Associateship in Canadian Surety Bonding Designation (A.C.S.B.) would be required to complete the Surety Association of Canada's (SAC) student registration form, which is located on the SAC website at www.suretycanada.com.</p> <p>In order to ensure that students have the basic capabilities necessary to be successful in the program's academic courses, learners are required to have the following pre-requisite knowledge and/or skills:</p> <ul style="list-style-type: none"> • Knowledge and skills with general computer applications, such as keyboarding, file management, spreadsheets and word processing; • Familiarity with internet browsers and web surfing; • English Language Proficiency requirements: Completion of TOEFL exam with minimum acceptable score of IBT: 86 overall with a minimum score of 20 on each of the four components (Reading, Writing, Speaking, Listening), valid for 2 years.
v. Program Pre-requisites (if applicable):	N/A
vi. Program Completion Requirements:	Students must complete all six (4 core and 2 elective) courses (18 units) in order to qualify for the Associateship in Canadian Surety Bonding Certificate.
vii. Program Delivery Format:	<p>Courses will be available in both in-class (most electives and accounting) and online self-study formats.</p> <p>In-class offerings will include a mixture of lecture and experiential learning activities, such as case studies, presentations, individual and group work.</p> <p>Online delivery will use primarily asynchronous activities designed to present the fundamental concepts and principals of suretyship as it applies to a career in the surety industry. Course activities will include instructor webinar/video lecture/presentations, discussion board topics, web-based learning activities, as well as, experiential learning activities (i.e. case studies, group discussions, projects).</p>
viii. Student Evaluations (Grading Process):	Each course will include an evaluation component. The evaluation may consist of any combination of assignments, case studies, presentations, individual or group projects, participation, mid-term and a final examination or a combination thereof. Where appropriate, evaluations will be structured to evaluate students' level of competency in achieving overall learning objectives.

ix. Course Evaluation:	For each course, students will complete an evaluation that explores content, delivery, materials, method of evaluation and instruction.
x. Course Instruction:	<p>Instructors for courses will be selected from a pool of qualified applicants. In compliance with McMaster's Senate and Undergraduate Council Guidelines for Certificates and Diplomas, selection will be based on academic background and/or experience within the field. Instructors will have the equivalency of a Master's Degree or significant professional and teaching experience within the field.</p> <p>Instructors for Principles of Suretyship, Construction and Surety Law, and Contract Surety are required to be practitioners in the surety industry and have been approved by the Surety Association of Canada to provide instruction for these three courses.</p>
xi. Credit Towards Degree Programme Studies:	The academic credit courses included in the certificate program can be used for credit towards degree program studies in accordance with the normal academic rules specified by the Faculty offering the degree.
xii. Program Advanced Standing:	<p>Learners who have completed equivalent coursework at other post-secondary educational institutions may apply for a maximum of two (2) transfer course credits toward the Associateship in Canadian Bonding Certificate.</p> <p>Approved transfer credit will be approved by the Program Manager based on the following criteria:</p> <ul style="list-style-type: none"> • courses must have an 80% overlap in content/curricula and a similar number of classroom or contact hours; • courses must have been taken within the last five years; • courses must have been taken from an accredited academic institution and listed on an official transcript with a grade of "C-" or better. <p>Learners who have completed equivalent coursework in excess of the permissible transfer credit maximum may apply for a course substitution. A course substitution may be permitted on a case by case basis, as approved by the program manager.</p>
Statement of Financial Viability:	
<p>I have reviewed the business case and financial projections which includes enrolment projections and costs. Sources of revenue for this program include tuition and supplementary fees (MAPS). Expenses are typical and include significant up-front development and marketing costs, as well as typical ongoing delivery costs (such as payment of facilitators, honoraria for other guest facilitators, materials, advertising and administration).</p> <p><i>Lorraine Carter, Director, Centre for Continuing Education</i></p>	

Statement of Administrative Responsibilities:**Statement of Faculty Alignment:**

The staffing and systems infrastructure to support the following functions already exists within the Centre for Continuing Education. Costs will be fully covered by tuition, with the exception of the first year of the program, when the startup will be subsidized by the Centre for Continuing Education.

Program responsibilities are as follows:

- Budget development and monetary responsibilities
- Program and Course Development
- Course Registrations/Administration
- Supervision of Instructors to ensure University policies and practices are adhered to; courses are taught according to program requirements and standards
- Marketing and Promotions

The DeGroote School of Business will act as academic liaison and is charged with the responsibility of on-going academic review and assessment of curriculum. The Faculty's letter of support is included at the end of this document.

Course Descriptions: (provide a one-paragraph course description; indicate course pre-requisites, if applicable, and a bullet list of key topics to be covered in the course):

Required Courses

Principles of Suretyship

A suretyship is a three-party agreement in which a guarantor assumes responsibility for the defaults or debts of one of the other two parties. They're especially common in construction projects of all sizes. In this course you'll learn about surety bonds and the suretyship process in all its intricacy and detail.

Pre-requisite: N/A

Contract Surety

Contract surety bonds are a vital part of the construction industry. In this course, you'll learn how they provide assurance and financial security for projects and guarantee that a contractor is qualified to oversee all work and related payrolls - and what to do in case of default. You'll learn standard construction procedures and the nature of contract surety.

Pre-requisite: Principles of Suretyship

Construction & Surety Law

No matter how meticulously you plan a construction project, legal disputes can arise. This course explores the basic principles of contract law as they apply to construction. Learn how contract law surrounding construction sureties evolved in Canada - the common law provinces and Quebec - and how to analyze contract documents. You'll also learn about tendering and construction liens.

Pre-requisite: Principles of Suretyship

ACC 925 Introductory Financial Accounting

Examine generally accepted accounting principles, the transaction cycle, financial statements and the balance sheet. Recommended prerequisite: ACC 830 or equivalent.

Elective Courses

ACC 920 Effective Communication

Develop critical thinking, research, writing, editing, and presentation skills. Learn strategies for writing effective business summaries and reports. Explore the tools and techniques for successfully preparing for and writing examinations.

Antirequisite: BUS 850 Business Communications

BUS 850 Business Communications

Gain the knowledge and skills associated with clearly receiving, transmitting and communicating information within the business environment.

Antirequisite: ACC 920 Effective Communication

BUS 436 Business Law

Gain insight on legal topics that accountants and general business managers encounter to recognize where legal problems exist and what avenues are open to resolve them.

BUS 825 Business Foundations

Study business in a Canadian context, including finance, personnel, marketing, operations and general management.

ACC 818 Economics

Understand economics, including the basic principles of microeconomics and macroeconomics. Some knowledge of graphs and equations is required. *ACC 829 – Preparatory Mathematics is recommended as a pre-requisite to this course.

HRM 821 Organizational Behaviour

Explore human behaviour through influences that affect productivity, efficiency and organizational effectiveness through group work and case material.

MKT 819 Introduction to Marketing

Learn basic marketing concepts, including product development, market segments, pricing strategies, brand equity, distribution channels and promotional activities.

ACC 928 Introductory Management Accounting

Study managerial and cost accounting issues as a framework for approaching contemporary cost problems.

ACC 926 Intermediate Financial Accounting I

Study the reporting environment, accounting process and asset valuation issues. Special topics include accounting for changes, errors and prior period adjustments.

Prerequisite: Introductory Financial Accounting or equivalent

ACC 927 Intermediate Financial Accounting II

Examine current financial reporting requirements and practices for liabilities and shareholders' equity, concentrating on the theoretical application and highlighting of other regulatory requirements

Prerequisite: Intermediate Financial Accounting I or equivalent

ACC 929 Intermediate Management Accounting

Build on the concepts of cost accumulation and allocation. Examine cost-volume-profit analysis and capital budgeting.

Prerequisite: Introductory Financial Accounting + Introductory Management Accounting or equivalent

ACC 934 Advanced Financial Accounting

This course deals with more advanced topics in financial accounting and reporting with an emphasis on business combinations and foreign currency transactions and translation. Accounting for non-profit sector organizations will also be examined with emphasis on financial reporting issues and objectives, financial statement disclosures and fund accounting.

Prerequisite: Intermediate Financial Accounting I or equivalent

ACC 930 Advanced Management Accounting

Building on models presented in Intermediate Management Accounting, study how systems and information are structured for managerial planning, decision making and evaluation.

Prerequisite: Introductory Financial Accounting + Intermediate Management Accounting or equivalent

ACC 933 Financial Management

Study asset and equity management with a focus on working capital levels, capital structure and distribution of profits.

Prerequisite: Intermediate Financial Accounting II + Intermediate Management Accounting or equivalent

ACC 937 Taxation I

Examine the theory and application of the Income Tax Act as it relates to both individuals and corporations.

Prerequisite: Intermediate Financial Accounting II or equivalent

RSK 713 Risk Management Principles & Practices

Study the first two steps of the risk management decision making process: (1) identifying and analyzing the loss exposures, and (2) developing alternative techniques for treating each exposure. Learn to choose the best risk management alternative and select the most appropriate techniques for handling each exposure.

RSK 714 Risk Assessment & Treatment

Explore the selection, implementation and monitoring of risk control techniques that are essential in preventing or minimizing potential losses before they occur. Examine fault-free study, statistical analysis, contractual liability reviews and in-house safety programs. Study the two dimensions of loss, frequency and severity, with particular attention on losses to property, people, net income and liability.

RSK 715 Risk Financing

Examine the selection, implementation and monitoring of risk financing techniques, which are ways an organization can obtain funds to pay for any accidental losses that occur. Study the framework and criteria for risk financing techniques; financing property, net income, liability and personnel losses; accounting and some income tax aspects of accidental losses; implementing risk retention, including use of affiliated assurers; insurance pricing; selection of insurers and their representatives; and risk cost allocation.

RE: Proposal for Associateship in Canadian Surety Bonding (A.C.S.B) Certificate

I have reviewed the Associateship in Canadian Surety Bonding Certificate program submission presented by the Centre for Continuing Education (CCE). I have determined that it meets all the criteria set out by the Undergraduate Council in its guidelines for diplomas and certificates and we, therefore, endorse this submission with the support of the DeGroote School of Business.

As McMaster University does not have internal expertise in the area of surety, the surety specific courses (*Principles of Surety, Construction and Surety Law, and Contract Surety*) were reviewed by external industry experts. Their conclusion is that the objectives of the proposed program are viable. The courses included in the program will fulfil the stated objectives and the program meets the Undergraduate Council's criteria for the designation of "Certificate". I concur with the external review.

The DeGroote School of Business is pleased to have a high-quality program such as the Associateship in Canadian Surety Bonding Certificate to meet the needs of people working/wanting to work in these fields. We support this CCE program as their academic affiliates, providing both the initial submission review and overview of ongoing curriculum issues. Additionally, we have provided CCE with the guidelines needed by their students for possible use of the advanced standing rules for students entering our degree programs using credit from completion of this program.

SUBJECT: Evaluation of Principles of Suretyship, Construction and Surety Law, and Contract Surety, Proposal for the Centre for Continuing Education (CCE)

I am presently a Senior Surety Specialist and manage a portfolio of surety business inclusive of large commercial, contract surety and developer surety. My current responsibilities also include oversight on all aspects of the business and staff development/training. I have close to two decades of experience and have held roles in both underwriting and management.

I have reviewed the course descriptions and outcomes for Principles of Suretyship, Construction, and Surety Law and Contract Surety, to be included as core courses under the proposed Associateship in Canadian Surety Bonding (A.C.S.B.) Certificate program to be offered through McMaster University's Centre for Continuing Education (CCE).

My examination of the course descriptions, instructional and evaluation methods indicate that the courses are of appropriate intellectual rigor for a 3.0 unit, half-year, undergraduate course, as per the specified minimum requirements set out in McMaster University's Policy on Certificates and Diplomas for Undergraduate Council.

Furthermore, the course material will benefit students who have decided to pursue a career in the surety industry. There are many avenues that one can pursue within the industry, whether it be in a new business production, claims & risk management, or surety bond underwriting. These three courses will give students an opportunity to learn key concepts that are essential for mastering as they progress in their careers.

Sincerely,
Jim Lazenkas

Subject: Evaluation of Principles of Suretyship, Construction and Surety Law, and Contract Surety,
Proposal for the Centre for Continuing Education (CCE)

As Vice President of the largest surety operating in Canada and the 6th largest surety overall in North America, my responsibilities as a leader in the industry for the past 15 years have provided me with the experience and expertise to assist in the creation and delivery of proprietary training programs at several surety companies in both Canada and the United States. It is my belief that creating future leaders through very focused and specialised knowledge transfer is how we will continue to lead and succeed in the future of our business.

I have reviewed the course descriptions and outcomes for Principles of Suretyship, Construction, and Surety Law and Contract Surety, to be included as core courses under the proposed Associateship in Canadian Surety Bonding (A.C.S.B.) Certificate program to be offered through McMaster University's Centre for Continuing Education (CCE).

It is my opinion that all 3 courses offer the appropriate introductory-level theoretical knowledge that would be required by the surety industry when seeking future entry-level talent. With this theory, students should be able to build on these foundations when placed into the industry where they could apply their knowledge in tandem with ongoing internal based training and mentoring to achieve their career goals. Furthermore, I believe that the course texts and other proposed resources are adequate, and the proposed evaluation methods will provide transparent results to the student body.

My examination of the course descriptions, instructional and evaluation methods indicate that the courses are of appropriate intellectual rigor for a 3.0 unit, half-year, undergraduate course, as per the specified minimum requirements set out in McMaster University's Policy on Certificates and Diplomas for Undergraduate Council.

I am the Past Chair of the Surety Association of Canada and a graduate of the A.C.S.B. Designation Program (Graduating Class of 2012). I hold an MBA from the University of Toronto – Rotman School of Management; a BA in Administrative & Commercial Studies from the University of Western Ontario; a CPA, CMA Accounting Designation from the Chartered Professionals Accountants of Canada; and a Canadian Risk Management certificate from the Global Risk Management Institute.

I have been working in the surety industry for the past 22 years with increasing levels of responsibility. Fifteen of those years were on the primary insurance side and seven years were on the surety reinsurance side of the business. I currently run the National Surety Operations for Chubb's construction surety portfolio and previously ran the National Surety treaty reinsurance business for Munich Reinsurance Company of Canada.

FROM: Steven D. Ness, President, Surety Association of Canada

SUBJECT: Evaluation of Principles of Suretyship, Construction and Surety Law, and Contract Surety, Proposal for the Centre for Continuing Education (CCE)

The Surety Association of Canada (SAC) is a national trade advocacy association that represents the interests of the surety industry across Canada. Our members represent more than 90% of all surety premiums written in Canada and consist of primary surety firms, surety reinsurers, surety/insurance brokers, and other organizations that provide related services to the surety industry such as legal firms and consultants. SAC is the comprehensive and accessible resource centre for those seeking information and answers from our industry and we work on our members' behalf by engaging key decision makers (and decision "influencers") to bring about surety-friendly conditions in bonds, contracts, legislation and regulations.

In May 1996, in response to numerous inquiries, SAC sent out a questionnaire to its membership regarding their education and training requirements. Based on overwhelming support for an education program, the Education and Research Committee began work in September 1996. The program officially launched in September 1998 and the first designation was conferred two years later. As of September 2019, 186 individuals have received the A.C.S.B. Designation.

The objective of the A.C.S.B. Designation Program is to provide member firms with a workable alternative to the development of expensive and time-consuming in-house training regimens. However, like all educational programs, the A.C.S.B. Designation Program is meant to compliment; not supplant the on-the-job training provided by the student's employer. It is anticipated that member firms will continue to provide mentoring and practical guidance to augment the learning experience for young professionals and prepare them for the day to day requirements of their jobs.

The courses have been designed as a learning vehicle for students who plan on embarking on a career in the surety industry and provides students with a theoretical and in-depth practical understanding of suretyship. Having been an instructor for the Principles of Suretyship course since its inception, I can confirm that this course, along with the Construction and Surety Law and Contract Surety courses, all provide a solid introduction to surety bonds and the suretyship process.

In terms of my background, I am one of five original founders of the association (1992) and have held the role of President since 1994. I began my career in the surety industry in 1977 with the United States Fidelity and Guaranty Company and held various senior surety underwriting positions with Aetna Canada and Halifax Insurance until my appointment as Vice President, surety for Commercial Union Canada in 1990. I hold a Bachelor of Arts (Hons.) from McMaster University.

In addition, I have served on various insurance Bureau of Canada committees and authored several articles on surety bonds and the suretyship process. I have spoken on suretyship in North and South America and Europe, including lectures for the University of Toronto and the Insurance Institute of Canada on the role of suretyship in the construction process.

I have reviewed the course descriptions and outcomes for the Principles of Suretyship, Construction and Surety Law and Contract Surety courses, to be included as core courses under the proposed Associateship in Canadian Surety Bonding (A.C.S.B.) Certificate program to be offered through McMaster University's Centre for Continuing Education (CCE).

My examination of the course descriptions, instructional and evaluation methods indicate that the courses are of appropriate intellectual rigor for a 3.0-unit, half-year, undergraduate course, as per the specified minimum requirements set out in McMaster University's Policy on Certificates and Diplomas for Undergraduate Council.

RE: Proposal for ***Managing in a Unionized Environment*** Essentials Course

I have reviewed the *Managing in a Unionized Environment* course submission to be cross-listed in the Communication, Leadership and Team Essentials Programs offered by the Centre for Continuing Education. I have determined that this course meets all relevant criteria set out by Undergraduate Council in its guidelines for diplomas and certificates and, therefore, support this submission on behalf of the DeGroote School of Business.

The proposal for this new course was reviewed by Dr. Aaron Schat. His conclusion is that the objectives of the proposed course are viable. The course learning activities and evaluation criteria will fulfil the stated objectives, and the course meets Undergraduate Council's criteria for a .5 unit value toward a "Certificate of Completion". Notably, one- and two-day Essentials courses may be used toward elective credit in the Business Administration Diploma. I agree with Dr. Schat's assessment.

The DeGroote School of Business is pleased to support a course such as *Managing in a Unionized Environment* that meets the needs of McMaster people leaders and external clients tasked with leading in unionized workplaces. As Continuing Education's academic affiliate for this course, the DeGroote School of Business carries out this initial review and provides oversight in the case of a curriculum issue.

Sincerely,

Course Description(s): Brand Management (to be changed to Advanced Brand Management) Anti-requisite: Brand Management <p>This course is designed to immerse students in the world of business management through the portal of a brand. Brand management is the art and science of creating and maintaining differentiation as a means of sustained long-term competitive advantage for a company. To do this, students will learn how to engage the</p>	

operational groups of an organization to deliver on the brand promise from the perspective of a general manager. This course will bring together the disciplines of product development, pricing strategy, customer management, channel strategy, integrated communication, and innovation as the building blocks of a strong brand.

Marketing Financials (to be changed to Measures and Metrics for Marketing Professionals)

The purpose of this course is to bridge the gap in thinking and language between “number-crunching” finance professionals and customer-centric marketers. Seen as an interdisciplinary specialization between Marketing and Finance, this course will train students to understand how marketing actions drive financial performance throughout the organization. Common marketing situations will be assessed including, but not limited to, profit dynamics, product mix management, new product forecasting, breakeven analysis, promotion profitability, distribution, and customer lifetime value assessments. A particular focus will be made on the external environment and the tools a marketer will utilize to maximize financial performance and customer value for the organization.

Branding and Image (to be changed to Introduction to Branding)

This course will explore the development, structure and management of leading brands in our society today. We will discuss the elements of brand identity, brand promotion and management of a strong brand. Learning experiences will incorporate weekly readings, online discussions, assignments and narrated slides.

List Any Anti-Requisites and Pre-requisites (if applicable):

Anti-requisites:

1. Advanced Brand Management. Anti-requisite: Brand Management
2. Measures and Metrics for Marketing Professionals Anti-requisite: Marketing Financials
3. Introduction to Branding. Anti-requisite: Branding and Image

Pre-requisite:

The former Branding and Image course to be re-named Introduction to Branding will serve, if this change is approved, as a pre-requisite to Advanced Brand Management in the Marketing Diploma.

Cross-listed courses (if applicable):

The three courses from the Advanced Marketing Techniques Certificate program, if the above changes are approved, will be cross-listed with the Business Administration Diploma with a concentration in Marketing.

Dr. Sue McCracken,

SUBJECT: Marketing Diploma Course and Program Changes of CCE

Dear Sue,

I received the request for reviewing the Centre for Continuing Education's proposal for making some name changes for Marketing courses and use of electives in the Marketing Diploma program. I reviewed the document (attached here) and consulted with a senior colleague in the area.

I have nothing to add to the proposal except the following observation with regards to changing the name from "Marketing Financials" to "Measures and Metrics for Marketing Professionals."

Measures and Metrics for Marketing Professionals suggests a greater degree of generality and scope than Marketing Financials. I am assuming that the proposed name change more truly captures the course content.

Sincerely,

TO: Dr. Tracy Prowse, Chair, Certificate and Diploma Committee
FROM: Dr. Sue McCracken, Associate Dean, Academic, DeGroote School of Business
SUBJECT: Course and program changes, Marketing Diploma and Advanced Marketing
Techniques Certificate

I have reviewed the proposal for changes involving the Advanced Strategic Marketing Certificate and the Marketing Diploma programs as offered by the Centre for Continuing Education (CCE). I have examined the submission document, and it is my opinion that the proposed course name changes and recommendations for course electives for the Marketing program are appropriate.

The content in the courses requested to function as electives in the Marketing Diploma and the idea of re-naming two of these courses informs my opinion that these changes will enhance the Marketing Diploma and students' learning experiences.

In closing, I support the proposed changes as they include (i) using three courses from the Advanced Marketing Strategies Certificate as electives in the Marketing Diploma; (ii) re-naming two of the aforementioned courses; and (iii) re-naming one course in the existing Marketing Diploma.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan McCracken". The signature is fluid and cursive, with the first name "Susan" written in a larger, more prominent script than the last name "McCracken".

Research Plagiarism Checking Policy – Draft Proposal

Developing a framework to use online
plagiarism checking software

SAF Pilot Project

- Graduate Studies was awarded an SAF entitled “**Improvements to McMaster’s Academic Integrity Tools**”
- Purpose of the project is to pursue a 3-year pilot for implementing a plagiarism detection software tool specifically for our research documents (**external release**)
- Developed in partnership with the Academic Integrity Office
- Targeted start date: January 2020

Background

- Many instances now of editors for publishing companies running submitted manuscripts through plagiarism checking software before reviewing
- Equally there are a growing number of cases where the publisher requires a similarity report to be submitted with the manuscript at the author's expense
- Additionally, there are groups scouring already published articles for cases of plagiarism because of the ease now of conducting such reviews

Background

- Plagiarism is often not readily detectable by simply review, especially in multi-authored documents being developed between many groups within and off campus.
- Certain documents we produce are poorly monitored yet can jeopardize ones future (ex. Canada's tri-council is actively looking for plagiarism in grants, even self plagiarism*)

Plagiarism Checking Software

Mitigating risk

Protecting
our
reputation

- We need to provide tools to detect plagiarism, and when it is detected, ideally turn it into a learning opportunity when naively done, and when purposely done, turn to our academic integrity policy
- McMaster's currently available plagiarism checking tool, Turnitin, for undergraduate scholarship requires a licence be granted to the software vendor, which may prevent subsequent publication
 - For research, we need a tool that does not complicate the copyright ownership

Policy Proposal

Setting expectations for use of a provided plagiarism checking software tool

- If McMaster is going to provide a plagiarism checking tool specifically meant for research publications, we must collectively agree on how the tool is going to be used.
- Policy does not define academic or research integrity, though those other policies may come into force in the act of using this software.
- New policy considers submission and similarity report review of:
 - Multi-authored journal articles
 - Books
 - Conference abstracts
 - Research grants
 - Graduate theses

INTRODUCTION

1. This Policy is meant to be read in conjunction with the [Research Integrity Policy](#) and the [Academic Integrity Policy](#). This document is not intended to supersede them.
2. The *Research Integrity Policy* sets the expectations for the responsible conduct of research at the University. All those conducting research under the auspices of McMaster University are responsible for familiarizing themselves with the Research Integrity Policy.
3. The definitions and the roles and responsibilities as defined in the [Research Integrity Policy](#) apply to this Policy. For the purposes of interpreting this Policy, readers are specifically directed to review the definitions of Research, Research Documents, Plagiarism, and Self-Plagiarism, and the roles and responsibilities of Researchers, Supervisors (both Academic and Employment), and Graduate Students.

This Policy is intended to provide researchers with a technical solution to check all Research Documents for plagiarism in their work, such as major research papers, thesis documents, scholarly articles, and other research materials as deemed necessary.

4. All Research Documents to be seen publicly should normally be checked prior to publication to ensure that they meet the University's standards for research integrity. Furthermore, it is expected that public disclosure will only occur after the Research Documents satisfy the requirements of any intellectual property agreement related to the research.
5. The Office of Academic Integrity is the administrative office responsible for assisting instructors, students and staff with issues of academic integrity and research integrity.
6. The McMaster Industry Liaison Office (MILO) provides assistance in understanding how intellectual

PLAGIARISM CHECKING SOFTWARE

7. The plagiarism checking software provided by the University is an online subscription-based tool that compares a submitted research document to other documents in its database for similarities. The software does not determine plagiarized content but rather highlights similarities with other sources.
8. It is the expectation of the University that researchers review any similarities identified by the software with any contributors to the research document, and determine whether changes are necessary before public release.
9. The selected plagiarism checking software used under this Policy will not archive a copy of the submitted research document, which is different from some plagiarism checking software, such as Turnitin. The copyright ownership of the research document will not be affected by its submission to the plagiarism checking software provided by the University.

PROCEDURES

10. Each Faculty shall clearly publicize this Policy in their program handbooks and central websites, noting any additional and/ or stricter requirements that may be in place within that Faculty.

Submitting a Research Document (excluding theses)

11. It is recommended that the submitter be listed as the corresponding author of the research document though any author who identifies the University as their affiliation in that document may check using the plagiarism checking system with the permission of the other authors.
12. It is recommended that the submitter notify the other authors, preferably early in the preparation of the document, that the University has a policy urging plagiarism checking prior to being sent to the journal or society or other scholarly body accepting the document for public disclosure.
13. It is the responsibility of the submitting researcher to review the report by the plagiarism checking system.
14. Reports showing a low similarity score are likely attributed to the software detecting unintended matching content and can normally be corrected before public release. Instances of high similarity scores being reported by the plagiarism checking system do not necessarily mean that plagiarism/self-plagiarism have occurred however, the Office of Academic Integrity should be consulted if there are concerns regarding research misconduct.

Submitting a Graduate Thesis

15. It is expected that all graduate theses, whether Masters or Doctoral that will ultimately be seen by the public shall be checked for plagiarism in compliance with this Policy.
16. Thesis shall be checked before being submitted to MacSphere or before being sent to an external reviewer. Since the plagiarism checking system does not need to maintain an archived copy of the thesis, copyright ownership is not affected by this academic requirement. Rare exemptions may be granted with the approval of a Faculty's Associate Dean of Graduate Studies where an alternative method of plagiarism checking is necessary.
17. Normally, the graduate student who owns the thesis shall request access to the plagiarism checking system through the University's subscription. The submission folder created for the student on the plagiarism checking site will allow both the student and Academic Supervisor to see the originality score of the thesis submitted for checking.
18. The student may make changes to their thesis and re-submit it a second time to ensure no concerning similarities are found. A student may not repeatedly submit revision after revision of their thesis,
19. The Academic Supervisor bears the responsibility of addressing allegations of academic and/or research misconduct with the Office of Academic Integrity should they believe that misconduct (as defined in the policies regarding academic and research integrity) has occurred.
20. The Academic Supervisor of the student must see the plagiarism checking similarity report and approve the thesis before the thesis may be given to the examining committee or external reviewers.

21. It is recommended that the supervisor retain a copy of the plagiarism checking similarity report should it be needed at a later time; a copy of the report should ideally be retained for at least three years or two years after the date the thesis is finally submitted to MacSphere, whichever is longer. In rare cases, the Departmental Chair or their delegate may approve the thesis based on the plagiarism checking similarity report instead and retain a copy of the report per the time limit mentioned above.
22. A thesis may not be sent to the examining committee until it has been checked by the plagiarism checking system. In rare cases where the software is inaccessible (for example, the subscription has expired or the University has exceeded its allocated number of submissions), a Faculty's Associate Dean of Graduate Studies may approve the thesis to be sent to the examining committee when the issue cannot be corrected in a timely manner.
23. The student understands and approves by following this action that the Associate Dean will submit the thesis to the plagiarism checking system once it is accessible again. The Principal Supervisor of the graduate student may submit the student's thesis to the plagiarism checking system themselves but only with written permission of the student. At no point in time may a member of the student's supervisory committee, who is not the Principal Supervisor, submit the thesis to the plagiarism checking system.
